

### Features & Benefits

- State of the art, decorative RGB LED lighting system
- Low profile design
- Endless creativity in a many applications
- Flush mounted LED units
- Require a material thickness of only 7mm
- UV-resistant lens and a stainless steel housing
- Water-resistant LED system (IP67)
- Long lasting, energy efficient LED technology

### Applications

- Natural stone
- Hardwood & laminate
- Carpet, carpet tiles & rugs
- (Entrance) matting
- Quartz carpet & vinyl flooring
- Stair treads, stringers & risers
- Baseboards, profiles & wainscoting
- Countertops & cabinets

## ColorEYE CS

Eyeleds® ColorEYE CS ('Color Stop') is a decorative, color changing LED lighting system. The product is available in the Multi configuration (single, linkable LED units) which makes ColorEYE CS suited for a vast variety of indoor applications.

ColorEYE CS is operated by a special driver and a single, wall mounted on/off switch. The color cycle mode starting with the color blue, runs automatically and continuously when the system is switched on. In the color cycle mode, the LED units simultaneously run for 10 minutes through the entire rainbow spectrum. Each color within the spectrum can be selected as a static color, simply by swiftly switching the system off and on. Reverting from the static color to the color cycle mode can be done, again by switching the system off and swiftly back on.

### Specifications

Power Consumption	0,42W / 35mA
Rated Life	up to 50.000 Hours
LEDs	SMD (RGB LED)
Materials	
Lens and Housing	Polycarbonate
Metal Parts	St. Steel (INOX 316)
Walkover Pressure	Max. 150kg / 1500N
Surface Temperature	
Front	Max. 34°C
Back	Max. 31°C
Operating Temperature	-35°C to +65°C
Voltage	12V DC
Warranty	3 Years Limited
Standards	CE
Environment	IP67, indoor application only

### Program 1: Color Change

### Program 2: Color Change / Color Stop
